**INFORMATION**

**Holding an online conference EdTechCrunch dedicated to discussing advanced educational programs in engineering areas within school programs**

**Dear colleagues and partners!**

We are pleased to invite you to EdTechCrunch, dedicated to discussing cutting-edge educational programs in engineering fields within school curricula.

The conference will take place on July 7, 2024 from 16:00 to 18:00 Yakut time (from 10.00 to 13.00 Moscow time) at the address Chapaevo village, Educational and Laboratory Building of Sakha Junior Science Academy (SJSA)

**Purpose of the conference:**

Discuss innovative approaches to teaching engineering disciplines in schools, exchange experiences and best practices, and also consider the possibilities of introducing modern educational technologies into the educational process.

**Key topics of the conference:**

- Current trends in teaching engineering disciplines.
- Experience of successful educational projects and programs.
- Interaction of schools with universities and industrial partners.
- Development of engineering competencies within school educational programs
- Consideration of the project for creating technology parks in schools.

**Event format:**

The conference will be held in person and online formats. The program includes speeches by leading experts in the field of education and discussion of further interaction.
